Intento de redirección del comando `dpkg -l` hacia un archivo de texto dentro del directorio `~/Documents`. La terminal devuelve un error (`No such file or directory`) debido a que la carpeta `Documents` aún no había sido creada en el sistema del usuario.

A terminal window with a dark purple background. The prompt is 'gabym@LAPTOP-7URH6061: \$'. The user enters 'dpkg -l > ~/Documents/MOCTEZUMA10SEP.txt'. The next line shows an error: '-bash: /home/gabym/Documents/MOCTEZUMA10SEP.txt: No such file or directory'. The prompt returns to 'gabym@LAPTOP-7URH6061: \$' with a cursor.

```
gabym@LAPTOP-7URH6061: $ dpkg -l > ~/Documents/MOCTEZUMA10SEP.txt
-bash: /home/gabym/Documents/MOCTEZUMA10SEP.txt: No such file or directory
gabym@LAPTOP-7URH6061: $
```

Creación del directorio mediante `mkdir -p ~/Documents`, la ejecución exitosa de la redirección de la lista de paquetes instalados (`dpkg -l > ...`), su comprobación con `ls -l` y el intento de listar paquetes Snap (`snap list`), informando que no hay paquetes de este tipo instalados.

A terminal window with a dark purple background. The prompt is 'gabym@LAPTOP-7URH6061: \$'. The user enters 'mkdir -p ~/Documents'. The next line shows the directory being created: '-bash: /home/gabym/Documents: No such file or directory'. The user then enters 'dpkg -l > ~/Documents/MOCTEZUMA10SEP.txt'. The next line shows the file being created: '-rw-r--r-- 1 gabym gabym 80800 Sep 10 16:39 /home/gabym/Documents/MOCTEZUMA10SEP.txt'. The user then enters 'ls -l ~/Documents/MOCTEZUMA10SEP.txt'. The next line shows the file details: '-rw-r--r-- 1 gabym gabym 80800 Sep 10 16:39 /home/gabym/Documents/MOCTEZUMA10SEP.txt'. The user then enters 'snap list > ~/Documents/Snap10Sep.txt'. The next line shows the output: 'No snaps are installed yet. Try 'snap install hello-world''. The prompt returns to 'gabym@LAPTOP-7URH6061: \$' with a cursor. The terminal window is part of a desktop environment with a taskbar at the bottom showing various icons and the system clock '04:40 p. m. 10/09/2026'.
